

SPECIAL ANNOUNCEMENT

In accordance with 30 Texas Administrative Code, Section 288, the Authority submitted Water Conservation and Drought Contingency Plans for the Tarrant County Water Supply Project, Navarro Mills Reservoir, Bardwell Reservoir, Joe Pool Reservoir in the Northern Region; and Lake Livingston & Wallisville Saltwater Barrier Projects, a Lake Livingston Project System Inventory and Water Conservation Plan for Agricultural Water Suppliers, as well as Drought Contingency Plans for the Huntsville Regional Water Supply System, Livingston Regional Water Supply System and Trinity County Regional Water Supply System in the Southern Region, to the Texas Commission on Environmental Quality (TCEQ) in May 2005. The Texas Administrative Code also requires updating of these plans and submission to the TCEQ, as well as to the Texas Water Development Board (TWDB) by May 1, 2009. Drafts of these plans are available for review in the Authority's Northern Region Office at 5300 South Collins, Arlington TX, and in Southern Region Office at 1601 Normal Park Dr., Huntsville, Texas.
